

eCheck-in

Save time and conveniently check-in for your upcoming doctor's appointment from your device or desktop. To use eCheck-in, you must have a Weill Cornell Connect account.

To sign up for Connect, you will need an activation code after your visit or you can sign up online at:

<https://bit.ly/WCMConnect>

What is eCheck-In?

eCheck-in is a fast and convenient way to reduce your visit wait time. We streamline existing features within Weill Cornell Connect and help reduce paper usage during the check-in process.

With eCheck-In, you can quickly and safely review and update your:

- address and contact information
- active insurance coverages
- medications
- pharmacies
- allergies
- current health issues
- pay any outstanding balances from previous visits

Access eCheck-In

Expedite your check-in process by following these simple steps:

1. You will receive an e-mail tickler the day before your scheduled appointment to complete eCheck-In. Click on the link to Weill Cornell Connect from the e-mail tickler to log in.

The screenshot shows a patient portal interface. At the top left, it says "Welcome!". Below this, there are two notification cards: one with a calendar icon for appointment instructions on Monday, December 9, 2019, and another with an envelope icon for 10 new messages. A "To Do" section lists a follow-up visit with Dr. Brett Jared Elvemann, MD, on Monday, December 10, 2019, at 12:10 PM. A calendar for December 2019 is displayed, with the 10th highlighted in blue and a yellow "eCheck-in" button overlaid on it. On the right side, there is a "Quick Links" menu with icons and text for: View test results, Send a message to your doctor's office, Schedule an appointment, Refill medications, Review health summary, View billing summary, and Share your record.

- After logging in, you will be brought directly to the eCheck-In screen. Click on the "eCheck-In" button to start the process of updating information prior to your visit.
- Note: You may see different requirements for each individual appointment, since you will not be asked to update/verify certain items that have already been verified within a certain time period.

Below are your current health issues. If you no longer have a health issue, hover over the issue and click on the REMOVE button to request updates. Click on the ADD A HEALTH ISSUE link to add additional health issues. The Learn more links will take you to additional information about that health issue. **Call 911 if you have an emergency.**

You have no health issues on file.
